What Will I Learn in the Grant VA Online Class? From whom?

There are over 100,000 grant-makers (private and public) in the U.S. Over the years, experts have discovered that most funders want to see similar elements in proposals they fund: 1) summary, 2) agency introduction, 3) need/problem statement, 4) outcomes/objectives, 5) project methods or design, 6) project evaluation in reaching outcomes/goals, 7) future funding after the grant is gone, and 8) an itemized budget. Interestingly, the Federal government also recommends these as the eight basic components to creating solid federal grant proposals.

“Yours is a good example of what I need in a grant. Would you mind if I shared the grant proposal you prepared for Charles Schwab Bank with organizations that are applying for grant funding?”

--Nancy E. Brown, Senior Manager, Charles Schwab Bank

Attendees will have a chance to critique and rate 2 sample proposals using our custom-made Evaluation Form using the 8 key proposal elements being taught. All of this is designed to help you be comfortable with the format before you ever write a word. You gain confidence along the way!

You will learn directly from Phil Johncock, MA, MMs, Grant Professional Certified, with a 96% success rate and having taught thousands. Phil is also an Approved Trainer with the Grant Professionals Association (GPA).

You will learn through a variety of proven online learning techniques including:

- Study questions and discussion
- Mock reviews of sample proposals
- Crafting your own mock proposals
- Peer reviews of other attendees' proposals as well as your own

"...a great help if you are just starting out or if you have written grants before. Evaluating other students' mock proposals is a very good method of seeing examples of what to do and what not to do. I didn't think about having peers also reviewing the draft proposal. I do better on a project when I am not rushed at the end."

Why Is It Called “Grant VA”?

When our first course was approved and offered in 2001 by the University and Community College System of Nevada for 2 college credits (30 hours of instruction), it was called “Grant 101” or “GRNT 101.” In 2007, the Grant Professional Certification Institute (GPCI) began offering the GPC exam as an independently administered assessment of skills needed by a “generalist grant professional.” So, the course was renamed “Grant Professional 101.” In 2021, a Grant VA version was designed with a hybrid module training by video online along with supplemental textbooks plus an accountability partner for ongoing support with a specific focus on Grant VAs.
